DETAILED ACTION

This Office action is responsive to the Amendment filed on December 3rd, 2009. The examiner acknowledges the amendments to claims 12, 16, 18, 19, 20, and 21, the cancellation of claims 13 and 14 and the addition of new claims 23 and 24. Claims 12, 16, and 18-24 are pending.

Allowable Subject Matter

1. Claims 12, 16, and 18-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: claim 12 recites a rotor inside a housing having a plurality of first magnets mounted along a plurality of radial rays and whose magnetic fields are oriented in the same direction and parallel to the rotational axis and a further magnet stationarily attached to the housing coaxially to the rotational axis and being oriented such that is polarity is opposite relative to the first magnets. The closest prior art of record is Ishikawa (US 6123657 A). Ishikawa discloses a plurality of magnets attached to a rotor with in a housing along a plurality of radial rays (fig. 32) however the magnetic fields of these magnets are not all oriented in the same direction and are not oriented parallel to the rotational axis of the rotor. Ishikawa also fails to disclose an additional magnet stationarily attached to the housing that is coaxial with the rotational axis of the rotor and is oriented so that its polarity is opposite to the first set of magnets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
